<b>Manistee County Road Commission</b>						
<b><u>Summary of Hot Mix Asphalt (HMA) Paving and Patching Materials Bids</u></b>						
<b>(Materials are picked up by the MCRC at the Plant)</b>						
<b>Bids Due: February 7, 2020</b>						
<b>Bid Item #2 - Hot Mix Asphalt Paving and Patch Materials</b>						
			<b>Elmers Crane &amp; Dozer</b>	<b>Molon Asphalt, Inc. (Formerly ATP)</b>	<b>Rieth-Riley Construction</b>	<b>Ron Brown &amp; Sons, Inc.</b>
	<b>Plant Locations:</b>		Traverse City	Interlochen	Ludington, Manton Traverse City	Bear Lake
	<b>Remarks:</b>			Net 30	Net 30	Net 30
N/A = Not Available						
<b>Notes:</b>						
1. The Bidder shall provide the type and specifications for any alternate HMA mixtures with the bids for consideration by the Manistee County Road Commission (MCRC).						
2. The MCRC intends on purchasing these materials when they perform pavement repairs, pavement patches, wedging, and other work activities that require HMA mixtures.						
3. MCRC will need to consider project site locations and needs when deciding where to purchase the HMA materials and verify if the plants are producing material on the specific days needed. MCRC trucking costs are a main consideration when determining where to purchase the materials. Will likely purchase the HMA materials from Ron Brown & Sons when HMA is needed for routine pavement patching of large potholes using our 2 ton capacity hot patchers (subject to their current HMA material prices).						
<b>Recommend awarding to Molon Asphalt, Inc., Rieth-Riley Construction, and Ron Brown and Sons but the MCRC will decide where to purchase the HMA materials based on their needs, projects, type of materials needed, and the project locations in the best interest of the MCRC. The plant locations, project sites, and trucking costs need to be considered when determining where to purchase the HMA materials.</b>						
<b>Mark Sohlden, MCRC - 3/04/20</b>
